Many residents know, the Del Webb Bexley Community Development District is the local unit of government responsible for managing and maintaining our community's ponds and conservation areas. These assets serve as both aesthetic features and essential components of our stormwater retention system.

Serving as a Supervisor is a meaningful way to contribute to the stewardship of our neighborhood. This role includes participating in public meetings, reviewing, and approving budgets, overseeing district owned assets, and helping guide policy decisions that support the community's long-term interests. Board of Supervisors elected officials under Florida law and are an important part in ensuring transparency, fiscal responsibility, and effective governance.
